

Product Name :
Cement Curing Cabinet

Product Code :
CHINAELABC2680028

Description :

Cement Curing Cabinet

Technical Specification :

The humidity is maintained from 95% to saturation by water nebulizer.
The temperature is maintained to $20\pm 1^{\circ}\text{C}$ by a immersion heater and separated refrigerator unit.
Ideal for curing cement specimens in commercial and site laboratories, very practical and easy to use.
The frame is made of strong polypropylene structure, which is chemical resistant and particularly suitable for cement applications.
It can also be used to concrete cubes and other mortar specimens.
Using a simple plastic pan is also possible to cure specimen in water.
The unit has to be connected to a suitable air compressor.
The front doors are fitted with transparent glass.
The four stainless steel racks of the internal frame can support the moulds with specimens and a large number of cement prisms.
Internal dimensions (lxdxh): 1115x435x1500 mm
Power: 1700 W approx.
External dimensions: 1160x550x1900 mm
