

Product Name :
Bar Cutting Machine

Product Code :
CHINAELABC2720021

Description :

Bar Cutting Machine

Technical Specification :

Durable fast and easy to use, this machine gives a one-shot cutting operation with perfect cutting accuracy thus minimizing the use of labor and long drawn cutting process for single cuts. TMT Cutting Machines, also known as Bar Cutting Machines are lightweight, easy in operation, yet very sturdy in structure.

The extra characteristics of the Rebar Cutting Machine help save a great heap of money and time for the customer in vast quantity, thus increasing their output capability.

This workhorse knows no stop as it can be effectively put to use for a constant round-the-clock production.

The dense building of this rebar equipment makes it ideal for a standard construction site.
