

Product Name :
Kinematic Viscometer Bath

Product Code :
CHINAELABC2710034

Description :

Kinematic Viscometer Bath

Technical Specification :

Bath is thoroughly checked on various parameters to ensure zero-defect.
This bath is designed and developed under the strict supervision of our experienced professionals in accordance with the international quality standards.
This bath is widely used in national laboratories and pharmaceutical industries.

Features:

- High precision digital display
- Ideal for controlling the temperature accuracy
- Intelligent signal sampling for accurate data measuring and parameter reading
- Desktop based all-in-one design for easy operations and portability
- Electric stirrer for ensuring uniform temperature of bath
- Easy cleaning and drying of viscometer tubes
- Accurate viscometer for improving experimental efficiency
- Durable glass bath for optimum heat preservation
