

**Product Name :**  
Current to Pressure Measurement Trainer

**Product Code :**  
CHINAELABC2550006

**Description :**

Current to Pressure Measurement Trainer

**Technical Specification :**

**FEATURES:**

The whole system is self-contained with all accessories included.  
The instrument is enclosed in a tapered fiberglass box and all necessary test points are brought out with schematic circuitry for understanding the working of the instrument.

**SPECIFICATION:**

I to P: input 4 to 20mA. Output 3 to 15 PSI  
Air Pressure Required: 30 to 80 PSI continues.  
Pressure Gauge: Bourdon pressure gauge 30 PSI 4"-2 No's  
Current Force  
Display 3½ digits LED display.  
Current o/p 4 to 20mV Variable by a potentiometer.  
Resolution: 0-1mA  
Accessories Supplied Air Regulator with fitter.  
Necessary tubing's and cable.  
Optional Air compressor at extra cost  
Power required for operation  
230V, 50Hz, 1 phase  
230V, 60Hz, 1 phase
