

**Product Name :**  
Diesel Engine Management Systems Panel Trainer

**Product Code :**  
CHINAELABC0030072

**Description :**

Diesel Engine Management Systems Panel Trainer

**Technical Specification :**

Diesel Engine Management Systems Panel Trainer provides students and instructors with the opportunity to demonstrate, investigate and fault-find a simulation of typical diesel engine management systems. The trainer is designed to allow access to a variety of test points for vehicle electrical components, as well as provide an understanding of the overall system layout and configuration. To facilitate the development of techniques in diagnostics and fault-finding skills, the panel includes a range of fault-insertion options to simulate typical real-world system malfunctions.

**Training Learning Concepts:**

Electronic control module  
Engine protection  
Engine exhaust emissions  
Engine management analog sensors  
Engine management digital sensors and switches  
Engine management active sensors  
Cruise control  
Engine management actuators  
Trainer includes: Curriculum Manual CD
