

Product Name :
Laser Distance Meter

Product Code :
CHINAELABC266007

Description :

Laser Distance Meter

Technical Specification :

Laser distance meter is the ideal device to ascertain the measurements of distance without bulky reel-in tapes, or walking wheel distance measurement systems.

Laser distance meter is made of high strength lightweight plastic and comes with a suitcase carrying case.

Our laser distance meter is used for accurately determining the distance of an object or span without contact by way of a laser.

The provided Laser distance meter basic measuring principle is based on measuring the transit time of laser pulses between the laser distance meter and the object to be measured for the considering of the speed of light, distances can be determined precisely with a laser distance meter.

Laser distance meter is used construction, such as carpentry, masonry, electrical, landscapers, developers, locksmiths and in industrial sector and especially with professions relating.

FEATURES :

Quick and Easy

Calculate the volumes areas

Measure from Edges or Corners

With the flip out end piece

Small and Handy

Ergonomic and compact soft grip design.

Clear Display

The results are shown on a 3-line display, display is easily readable, even in the dark.

Simply Clever

Tracking and storage minimum / maximum measurements
Holster: Stows Everything Away Neatly

Engineering Lab China
