

Product Name :
Separating and Throttling Calorimeter with Mini Boiler Test Bench

Product Code :
CHINAELABC2630023

Description :

Separating and Throttling Calorimeter with Mini Boiler Test Bench

Technical Specification :

FEATURES:

Determining the vapour content using
A separating calorimeter with cyclone water separator
A throttling calorimeter with vapour depressurization
Using an h-s diagram

SPECIFICATIONS:

Supplied vapour :
Temperature: 240°C
Pressure: 10bar
Safety valve: 10bar

Measuring ranges :

Temperature: 0...400°C
Pressure (outlet): -150...100mbar
Pressure (inlet): 0...16bar
230V, 50Hz, 1 phase
230V, 60Hz, 1 phase
120V, 60Hz, 1 phase
