

Product Name :
Cut Model of Rear Axle with Locking Differential

Product Code :
CHINAELABC2640016

Description :

Cut Model of Rear Axle with Locking Differential

Technical Specification :

FEATURES:

Operated: Manually (Through a Crank Handle)
Equipment Layout: On Base
Fine finish
Simple operations
Functional accuracy

SPECIFICATION:

The main components are:
Axle shafts
Bevel gear (pinion – crown)
Differential (satellite and planetary) with locking differential
Reducer and planetary on the hub
Brakes with jaws/drum
Double air brake element

Engineering Lab China
