

Product Name :
Anemometer

Product Code :
CHINAELABC2550016

Description :

Anemometer

Technical Specification :

FEATURES:

Vane anemometer with simultaneous display of Air Flow or Air Velocity, plus Ambient Temperature
Calculates air volume in CFM or CMM
Features data hold and min/max/avg functions
Easy to set area dimensions are stored in the meter's internal memory for the next power on
The Vane Anemometer has 8 memory locations for CFM and 8 for CMM for storing commonly used area sizes
20 point average for Air Flow
3% velocity accuracy via low friction 2.83 in (72 mm) diameter ball bearing vane wheel on 3.9 ft (120 cm) cable.

SPECIFICATION:

This meter is a digital anemometer for measuring the ambient temperature, humidity, dew point Temperature, wet bulb temperature, wind speed, and air volume.
This meter is a portable, professional measuring Instrument with large-screen LCD and backlight, Multi-unit switching functions.
This meter has the functions of reading hold, maximum, minimum, etc.
This meter can be used for hand-held or fixed Measurement.
