Product Name:

Product Code: CHINAELABC2550016

## **Description:**

Anemometer

#### **Technical Specification:**

### FEATURES:

Vane anemometer with simultaneous display of Air Flow or Air Velocity, plus Ambient Temperature Calculates air volume in CFM or CMM

Features data hold and min/max/avg functions

Easy to set area dimensions are stored in the meter's internal memory for the next power on

The Vane Anemometer has 8 memory locations for CFM and 8 for CMM for storing commonly used area sizes 20 point average for Air Flow

3% velocity accuracy via low friction 2.83 in (72 mm) diameter ball bearing vane wheel on 3.9 ft (120 cm) cable.

#### SPECIFICATION:

This meter is a digital anemometer for measuring the ambient temperature, humidity, dew point Temperature, wet bulb temperature, wind speed, and air volume.

This meter is a portable, professional measuring Instrument with large-screen LCD and backlight, Multi-unit switching functions.

This meter has the functions of reading hold, maximum, minimum, etc.

This meter can be used for hand-held or fixed Measurement.
