

Product Name :
Soldering Station 90W with Heater Element

Product Code :
CHINAELABC4210004

Description :

Soldering Station 90W with Heater Element

Technical Specification :

Auto turn PID Control Circuit
Ease of operation
Set / Read of Operation
Separate switches for increase & decrease of temperature, after two seconds the actual read of temp will display
Intelligent Power management auto stand by on mains interruption to save power
Temperature control accuracy $\pm 1^{\circ}\text{C}$
If sensor fails power to the element is shut off
Burn proof silicon cable thermal resistance up to 600°C
