

**Product Name :**  
Complete Rework Station

**Product Code :**  
CHINAELABC4210010

**Description :**

Complete Rework Station

**Technical Specification :**

Accurate and advanced temperature, control with micro controller technology

Set / Read of Operation

Separate of increase & decrease of temperature, after two seconds the actual read of Temperature will display

Intelligent power Management auto stand by mains interruption to save power

Temperature control accuracy  $\pm 1^{\circ}\text{C}$

If sensor fails, power to the element shut off

The unit designed for digitally calibration thru advanced software

Burn Proof silicon cable thermal resistance up to  $600^{\circ}\text{C}$

Power full DC Pump with 4000 RPM

Clear LCD Display

Nine Simultaneously Operations, all nine Ops Independent

Completely Indigenously developed

The Mini Lab Features in a tabletop Unit

System Includes:

Soldering Station : 24V / 60W

De-Soldering Stations : 24V / 70W

Thermal wire Stripper

DC Power Supplies : 1.5V to 18V DC

---

SMD Hot Air (with Built in Vacuum Pick Up)  
SMT Hot Tweezer (2 x 25W)  
Electric Screw driver  
Machine Center (Micro Drilling, Milling,)  
Auto Range Multimeter
