**Product Name:** 

Complete Rework Station

Product Code: CHINAELABC4210010

## **Description:**

Complete Rework Station

## **Technical Specification:**

Accurate and advanced temperature, control with micro controller technology

Set / Read of Operation

Separate of increase & decrease of temperature, after two

seconds the actual read of Temperature will display

Intelligent power Management auto stand by mains

interruption to save power

Temperature control accuracy ± 1°C

If sensor fails, power to the element shut off

The unit designed for digitally calibration thru advanced software

Burn Proof silicon cable thermal resistance up to 600°C

Power full DC Pump with 4000 RPM

Clear LCD Display

Nine Simultaneously Operations, all nine Ops Independent

Completely Indigenously developed

The Mini Lab Features in a tabletop Unit

System Includes:

Soldering Station: 24V / 60W De-Soldering Stations: 24V / 70W

Thermal wire Stripper

DC Power Supplies: 1.5V to 18V DC

SMD Hot Air (with Built in Vacuum Pick Up) SMT Hot Tweezer (2 x 25W) Electric Screw driver Machine Center (Micro Drilling, Milling,) Auto Range Multimeter
