

Product Name :
Low Tension AC and DC Power Supply with Voltmeter and MCB

Product Code :
CHINAELABC422001

Description :

Low Tension AC and DC Power Supply with Voltmeter and MCB

Technical Specification :

Low Tension AC / DC Variable Power Supply. Output Voltage can be easily varied with the help of a Variac. Power Supply can be used for variety of applications like in Education, Engineering, Telecommunication, Industrial Electronics, Nuclear Sciences, Analogue and Digital Computers, Logic Circuits, DC Amplifiers Calibration of electrical meters and Instruments, Defense, Institutes, Experimental Laboratories, Testing, Production etc.
