Product Name :	**Product Code :**
Specialized IC Programmer Universal IC Programmer and IC Tester	CHINAELABC4400001

Description :

Specialized IC Programmer Universal IC Programmer and IC Tester

Technical Specification :

Added on each pin, to protect programmer hardware from destroying, due to bad chip, short circuit and ESD. User-selectable verification.

Select verfication voltage, e.g., Vcc, Vcc±5%, Vcc±10%, . This verification ensures that your device has been programmed properly, preventing failures due to programming errors and ensuring data retention.

Device insertion and contact checks

Performs device insertion and contact check before it programs each device & can detect poor pin contact & devices inserted upside down or in the wrong position. This function prevents chip from getting damaged due to operator error.

Remote Laptop Programming

No external AC adapter needed fro most devices [for Devices having Vp Universal PLCC, SOIC, SSOP.. to DIP adapters

No need to purchase a new adaptor for different devices of same package.

Over 45 different adapters

To support PLCC, SOIC, TQFP, TSSOP & other SMD devices.

Engineering Lab China
