

Product Name :
Rheostat Open Type**Product Code :**
CHINAELABC4490001**Description :**

Rheostat Open Type - 4.3 cm Dia - Length 15 cm Choose Current & Resistance
Rheostat Open Type - 4.3 cm Dia - Length 20 cm
Rheostat Open Type - 4.3 cm Dia - Length 25 cm
Rheostat Open Type - 4.3 cm Dia - Length 30 cm
Rheostat Open Type - 4.3 cm Dia - Length 35 cm
Rheostat Open Type - 4.3 cm Dia - Length 40 cm
Rheostat Open Type - 4.3 cm Dia - Length 45 cm
Rheostat Open Type - 4.3 cm Dia - Length 50 cm
Rheostat Open Type - 5.6 cm Dia - Length 15 cm
Rheostat Open Type - 5.6 cm Dia - Length 20 cm
Rheostat Open Type - 5.6 cm Dia - Length 25 cm
Rheostat Open Type - 5.6 cm Dia - Length 30 cm
Rheostat Open Type - 5.6 cm Dia - Length 35 cm
Rheostat Open Type - 5.6 cm Dia - Length 40 cm
Rheostat Open Type - 5.6 cm Dia - Length 45 cm
Rheostat Open Type - 5.6 cm Dia - Length 50 cm

Technical Specification :

A Rheostat is used to raise or lower the resistance of a circuit and correspondingly to decrease or increase the current following. Our Rheostat are manufactured in a very wide range. which are being used in electronic industries, schools, collages laboratories over decades. A wide range of Rheostat are available depending on current and resistance ratings which can be selected from the below table. Customized designing available on request like Double Tube, Hexagonal Tube, Closed Type etc. Higher wattage resistors for special applications can be made.
