

Product Name :
DDS Function Generator 15 MHz LCD Display
USB+Software

Product Code :
CHINAELABC450007

Description :

DDS Function Generator 15 MHz LCD Display USB+Software

Technical Specification :

Function Generator can generate multiple waveforms such as sine wave, square wave, triangle wave, pulse wave, and arbitrary wave. The frequency range up to 15MHz with duty cycle adjustment, sweep frequency, frequency signal frequency and counter function, and the output signal, amplitude, and frequency can be simultaneously. The series signal generator has excellent amplitude and frequency characteristics, the appearance of this instrument is exquisite and beautiful.
