

Product Name :
Solar Module and Solar System Analyzer Photovoltaic I-V
Curve Tester 12 KW

Product Code :
CHINAELABC4510003

Description :

Solar Module and Solar System Analyzer Photovoltaic I-V Curve Tester 12 KW

Technical Specification :

Solar Module / Solar System Analyzer (Photovoltaic I-V Curve Tester) : Solar System Analyzer (Photovoltaic I - V Curve Tester) with DC Current Clamp, AC Power Clamp, Thermo & Irradiance Meter (with Bluetooth Connectivity) : Max. Solar System Power Search by Auto Scan : 1000V DC, 12A DC (12 KW Capacity), Measures Single Panel and String OPC and STC Data with V_{now} , V_{oc} , I_{sc} , P_{max} , V_{maxP} , I_{maxP} , Efficiency and Fill Factor, Real Time Irradiation and Solar Panel Temperature, Inverter Efficiency (DC to AC) with PC (USB) Connectivity, Memory Record and Backlight Display O Environment
