

Product Name :
Low Tension AC/DC Power Supply

Product Code :
CHINAELABC4220003

Description :

Low Tension AC/DC Power Supply (0-25V @ 8A; AC or DC)

Technical Specification :

Low Tension AC / DC Variable Power Supply. Output Voltage can be easily varied with the help of a Variac. Power Supply can be used for variety of applications like in Education, Engineering, Telecommunication, Industrial Electronics, Nuclear Sciences, Analogue and Digital Computers, Logic Circuits, DC Amplifiers Calibration of electrical meters and Instruments, Defense, Institutes, Experimental Laboratories, Testing, Production etc.
