

Product Name :
Electronics Component Tester

Product Code :
CHINAELABC440005

Description :

Electronics Component Tester

Technical Specification :

No Personality cards/reference IC/IC data required.
Automatic testing of IC after entering the IC number. No wiring is required.
Continuous mode of testing ICs until aborted. Number of times the test was successful is displayed.
Step mode to locate the faulty pin. Step number and faulty pin number are displayed.
Backspace clear select option and number keys for editing IC number.
Remembers the IC number for repeated testing of same IC.
Self test facility during power-on and through keyboard.
Help key for short description of the various key function.
Potential free 20 pin ZIF (Zero Insertion Force) socket for easy insertion and removal of ICs under test and component holder to hold components.
I Computer Interface through RS232C for enhancement of IC test library
I Buzzer to indicate bad IC.
