

Product Name :
Rapid Moisture Meter

Product Code :
CHINAELABC2690074

Description :

Moisture Meters - Rapid Moisture Meter

Technical Specification :

Moisture content determination of soil is an important part of listing in the field of agriculture, civil engineering, pharmaceutical industry etc. Test is based on the chemical reaction between calcium carbide and moisture in the soil.

The amount of gas formed is directly proportional to the moisture content which is indicated in terms of percentage on the pressure gauge.

Features :

Fast accurate and reliable.

No electricity required.
