

Product Name :
Clamped Bosses Proving Rings

Product Code :
CHINAELABC2690165

Description :

High Sensitivity Proving Rings - Clamped Bosses Proving Rings

Technical Specification :

These Proving rings have clamped bosses and are available in the range of 0.5kN – 100kN. repeatability and accuracy of all the rings

Capacity

0.5 kN

1.0 kN

2 kN

2.5 kN

50 kN

100 kN

Integral Proving Rings

These Proving rings have integral loading bosses forged and machined along with the ring. These bosses can not shift their position to cause mis-alignment which may result in loss of accuracy These rings are manufactured up to 3000kN capacity.
