

Product Name :
Laboratory Bench Oven

Product Code :
CHINAELABC0090001

Description :

Laboratory Bench Oven

Technical Specification :

Oven door with Silicon gasket & transparent thermal glass window for watching the samples under drying.
Temperature control protection.

Use: General drying of samples in the laboratory.

Interior body is made of stainless steel by argon-arc-welding technique.

Exterior body is made of high-quality steel sheet with a novel appearance.

Hot air circulation system is composed of the blower fan and proper air channels.

Digital display.

Microcomputer PID temperature controller with a timer function to ensure precise & reliable temperature control.

Can adjust blast and exhaust in control panel.

Specification:-

Temp. range: +50-300°C.

Time Locating Range: 1-9999Min.

Capacity: 220 liters.

Temperature Resolution: $\pm 0.10\text{C}$.

Rated power heater elements: 2.4 KW

Temp. Fluctuation: $\pm 0.75\ 0\text{C}$.

Shelves: 2, Shelf positions; 3

Engineering Lab China
