

Product Name :
Constant Temperature Water Bath 10L

Product Code :
CHINAELABC4680001

Description :

Constant Temperature Water Bath 10L

Technical Specification :

Constant temperature water bath is a laboratory instrument designed for factories, construction companies, colleges, universities, and research institutes. The water bath allows for multifunctional circulations, providing constant temperature for high or low temperature test.

Power supply: AC (220±10%)V, 50Hz

Bath volume: 10L

Temperature controlling range: -10~95

Temperature controlling accuracy: ±0.1

Circulating water: 3.5 L/min

Ambient temperature: -10~+30

Relative humidity: 85%

Dimension: 530x400x430mm (LxWxH)

Maximum power consumption: 1100W
