Product Name:

Automatic Marshall Electric Compactor

Product Code: CHINAELABC4700002

Description:

Automatic Marshall Electric Compactor

Technical Specification:

Automatic Marshall electric compactor is designed to prepare cylindrical specimens of asphalt mixture for a variety of compressive strength tests such as Marshall Stability and indirect tensile strength tests. The sizes of cylindrical specimens are available in ?101.6mmx63.5mm and ?152.4mmx95.3mm.

Hammer 1: 4536g±9g Hammer 2: 10210g±10g

Falling of hammer: 457mm±1.5mm

Mould 1: Suitable for ?101.6mm×63.5mm Mould 2: Suitable for ?152.4mm×95.3mm Compaction speed: (60±5)times/min Compaction time: (0?999)times

Wooden compaction base: 457mm×200mm×200mm Concrete compaction base: 120mm×460mm×480mm

Power supply: AC (220±10%)V, 50Hz

Motor power: 370W

Overall dimension: 1740mm×540mm×540mm
