

**Product Name :**  
Asphalt Mixture Core Drilling Machine

**Product Code :**  
CHINAELABC4710001

**Description :**

Asphalt Mixture Core Drilling Machine

**Technical Specification :**

Pavement core drilling machine is designed to obtain high quality core drilling samples, especially for asphalt mixture specimen.  
This asphalt mixture core drilling machine is compact and easy to operate.  
Drilling core for dynamic modulus test  
Drilling core for indirect tensile, semi-circular bending, Overlay, DCT, SST and other test that requires cylindrical specimen  
Drilling core upon a prism cut from slab of wheel tracker  
Drilling core directly upon shearing compacted slab  
Power: 220V, 10A, 50Hz, 2200W, single-phase
