

Product Name :
Asphalt Mixture Core Drilling Machine

Product Code :
CHINAELABC4710001

Description :

Asphalt Mixture Core Drilling Machine

Technical Specification :

Pavement core drilling machine is designed to obtain high quality core drilling samples, especially for asphalt mixture specimen.
This asphalt mixture core drilling machine is compact and easy to operate.
Drilling core for dynamic modulus test
Drilling core for indirect tensile, semi-circular bending, Overlay, DCT, SST and other test that requires cylindrical specimen
Drilling core upon a prism cut from slab of wheel tracker
Drilling core directly upon shearing compacted slab
Power: 220V, 10A, 50Hz, 2200W, single-phase
