

Product Name :
Concrete Water Permeability Testing Machine Analog

Product Code :
CHINAELABC490001

Description :

Concrete Water Permeability Testing Machine Analog

Technical Specification :

Concrete water permeability apparatus is a gauge type instrument used to test the impermeability of concrete and to determine the impermeability grade.

Max. pressure: 4Mpa

Test specimen in one time: 6pcs

Mode: Constant pressure/constant pressure with increasing pressure

Power: 220V 50Hz 120W
