Curing Cabinet

**Technical Specification :**

Curing Cabinet is used for curing the test specimens of cement, concrete and cement elements. This chamber can maintain test samples at a specific temperature and humidity level.

Effective capacity: 0.4m<sup>3</sup>, 65\*50\*130cm  
Temperature control: 0~20°C  
Temperature variation: ±1°C  
Humidity control range: ?95%  
Heating power: 400W  
Refrigeration duty: 152W  
Power: 220V±22V, 50Hz
