

Product Name :
Concrete Carbonization Testing Cabinet 230W

Product Code :
CHINAELABC4950001

Description :

Concrete Carbonization Testing Cabinet 230W

Technical Specification :

Concrete carbonation testing cabinet is a sealed box where the specimen is placed on clapboard inside. Then it is easy to set temperature, relative humidity and carbon dioxide concentration by digital controller to ensure temperature, humidity and carbon dioxide concentration keep constant inside the box.

Outside dimension: 120x62x152cm

Box inside dimension: 74x52x110cm

Accepted specimen: 100x100x400mm, 24pcs

Temperature: 15?~30? (adjustable)

Humidity: 50?~90? (adjustable)

Carbon dioxide concentration: 0?~20?

Heating power: 1kW

Cooling power: 230W

Humidification power: 50w

Electricity: AC 220V, 50Hz
