

Product Name :
Freeze Thaw Cabinet Antifreeze Fluid

Product Code :
CHINAELABC4960002

Description :

Freeze Thaw Cabinet Antifreeze Fluid

Technical Specification :

Freeze thaw cabinet is suitable for the determination of concrete specimen under the water freezing and thawing conditions. This freezing and thawing testing machine measures the resistance of concrete to deterioration caused by repeated cycles of freezing and thawing in order to evaluate concrete performance.

Accepted specimen: 10pcs

Specimen dimension: 100×100×400mm

Freezing and thawing circle: Around 2.5-4 hours

While thawing time is no less than 1/4 of the whole circle

Freezing and thawing medium: Antifreeze fluid (-45?)

Cooling compressor: 3HP

Heating power: 2.5kW

Max. working power: 3kW

Power supply: 3N-380V, 50Hz
