

Product Name :
Flexure Testing Machine

Product Code :
CHINAELABC5030005

Description :

Flexure Testing Machine

Technical Specification :

Flexure testing machine is intended for flexural strength test of cement specimen and other non-metallic material.

Max. loading capacity: Single lever: 1000N, double-lever: 5000N

Measuring accuracy: $\pm 1\%$

Single lever output ratio: 10:1

Double-lever output ratio: 50:1

Loading speed ratio of double-lever: 50N/s

Support roller distance: 100 ± 0.1 mm

Baffle plate span: 46mm
