

Product Name :
Motorized Flow Table for Cement Mortar

Product Code :
CHINAELABC5110001

Description :

Motorized Flow Table for Cement Mortar

Technical Specification :

Flow table is designed for determining flow and for preparing mortars of standard consistency for testing. The flow and workability of cement mortar depend on the water amount. The flow is determined as the average diameter (mm) of the cement mortar spread on the flow table.
Weight of vibrating part: $4.35\text{kg} \pm 0.15\text{kg}$
Drop height: $10\text{mm} \pm 0.2\text{mm}$
Vibrating frequency: 1Hz
Working cycle: 25
