

Product Name :
Multi-Functional Rebar Locator

Product Code :
CHINAELABC5250002

Description :

Multi-Functional Rebar Locator

Technical Specification :

Rebar locator is a multi-functional integrated rebar detector which can be used for testing the thickness of protective layer, measuring the diameter, location, and distribution of rebar as well as for detecting the corrosion content of rebar.

Measuring range of rebar diameter: $\varnothing 6\text{mm}\sim 50\text{mm}$

Rebar cover meter
range (mm): First range
3~98

Max. allowed error
for cover

meter: $\pm 1\text{mm}$ 6~56

$\pm 2\text{mm}$ 58~69

$\pm 4\text{mm}$ 70~98

Max. allowed error for diameter measurement ± 1 rebar standard level

Data transmission: USB

USB port: Thumb drive storage available
