

Product Name :
Aggregate Testing Buoyancy Balance

Product Code :
CHINAELABC5440017

Description :

Aggregate Testing Buoyancy Balance

Technical Specification :

For Water absorption and specific gravity test of aggregates.

With Density basket, water tight cylinder and electronic balance of 10 kg x 0.5 gm sensitivity.

The balance will be with under hook weighing arrangement and will be mounted on suitable table to facilitate the test.

The Water tight container will be mounted on a mechanical jack, which will facilitate the up down movement of the container for weight in air and water.
