

Product Name :
Air Conditioning And Heating System Trainer

Product Code :
CHINAELABC2930003

Description :

Air Conditioning And Heating System Trainer

Technical Specification :

Vapor Cycle Compressor
Compressor Motor
Receiver Dryer
Condenser
Thermal Switch
Combustion chamber
Fuel tank and associated plumbing
Fuel pump and associated electrical components
Ignition system components
Thermal control switches
Control Valves
Air Blower and associated ducting
Panel mounted control panel
Regulating valve

Product Features:

Highlights

All components are mounted on steel frame with full swivelcasters and brakes
Durable powder coating finish
Fully labeled electrical wires
System operates on 110/220V AC and 24VDC

Engineering Lab China
