

Product Name :
Two Phase Flow Demonstrator

Product Code :
CHINAELABC2960006

Description :

Two Phase Flow Demonstrator

Technical Specification :

Working fluids air and water
3 Clear PVC process pipe runs
Horizontal pipe run
Horizontal pipe run with liquid trap
Vertical pipe run with gas lift or combined flow option
Centrifugal pump for water stream
Rotameter for water fluid flow rate indication
Regenerative air blower
Averaging Pitot for air flow rate indication
Water storage tank
Complete unit mounted on a utility size cart for ease of movement and storage
Approximate overall dimensions 80 x 60 x 120 cm high (32 x 24 x 48 high)
