

Product Name :
Core Drilling Machine Petrol

Product Code :
CHINAELABC2710001

Description :

Core Drilling Machine Petrol - The complete assembly is supplied on a rigid wheel mounted metal base frame with leveling and fixing facility during the operation.

Technical Specification :

A ball screw mechanism enables close control of the drilling pressure and rapid return.
A water spraying assembly is mounted on the machine. Coring Bits should be ordered separately.

The Pavement core drilling machine is produced to cut cores up to 200 mm diameter from concrete, asphalt and similar hard construction materials.

The machine comprises a vertical support column which carries the drill head/motor assembly.
The motor assembly comprises a 6.5 Hp 4 stroke high quality petrol engine.

Excellent for use in a wide range of bitumen and asphalt testing industrial procedures. It's the ideal tool for use in an bitumen and asphalt testing engineering workshop.
