

**Product Name :**  
Air Content Meters

**Product Code :**  
CHINAELABC2680005

**Description :**

Air Content Meters

**Technical Specification :**

These apparatus have been designed to determine the air content in cement mortar, cement paste, and lime mortar.

The testers are made of cast aluminium.

This air pump and the push buttons TEST and CORRECTION are arranged in a simple-to-use configuration on the front plate.

The pressure gauge is installed recessed in the head of the meter.

The scale has an indication range of 0-50 volumetric %.

The test pot and the upper part are sealed air-tight together by means of two quick-action spring clamps.

The air is compressed by means of a built-in hand pump.

The two models are practically identical except for the capacity.

This model, 1 liter capacity, is conforming to the EN 459-2 whilst, 0.75 liter capacity is conforming to EN 413-2 standards.

Both models can be supplied, on request, in the electric operated version.

Cement Testing Lab Equipment, tools, products and systems for engineering lab and engineering teaching vocational education. At Engineeringlabchina get practical educational equipment for Cement Testing Lab Equipment schools and teaching staff. Buy wholesale China Cement Testing Lab Equipment Manufacturers. Engineeringlabchina high quality Technical Education Equipment products at the best price from China. Cement Testing Lab Equipment China, Experiment Equipment suppliers China, and factory in China
