

Product Name :
Specific Gravity Bottles

Product Code :
CHINAELABC2690024

Description :

Specific Gravity Bottles

Technical Specification :

Glass bottles complete with capillary vent stopper.

The determination of the specific gravity and density of fine soils is developed through three different operations: the sample, introduced in the specific gravity bottle, has to be thermostatically normalized by immersion in a suitable water bath complete with Adjustable tray and Cover with cooling coil (see accessories), then de-aired using a dessicator connected to a vacuum pump (see accessories) and, finally, weighted.

Soil Testing Lab Equipment, tools, products and systems for engineering lab and engineering teaching vocational education. At Engineeringlabchina get practical educational equipment for Soil Testing Lab Equipment schools and teaching staff. Buy wholesale China Soil Testing Lab Equipment Manufacturers. Engineeringlabchina high quality Technical Education Equipment products at the best price from China. Soil Testing Lab Equipment China, Experiment Equipment suppliers China, and factory in China
