

Product Name :
Proctor Moulds and Rammers

Product Code :
CHINAELABC2690028

Description :

Proctor Moulds and Rammers

Technical Specification :

The mould includes collar, mould body and base plate.

The rammer construction includes a guide sleeve with vent holes.

Different versions are available that conform to the various commonly used standards.

They are all made of plated steel and are identical in shape, only differing slightly in diameter and capacity.

Used for determining the relationship between the moisture content and density of compacted soil.

In this section moulds and rammers conforming to ASTM/AASHTO are shown.

For the extrusion of soil specimens from the mould, the Universal specimen extruder may be used.

Soil Testing Lab Equipment, tools, products and systems for engineering lab and engineering teaching vocational education. At Engineeringlabchina get practical educational equipment for Soil Testing Lab Equipment schools and teaching staff. Buy wholesale China Soil Testing Lab Equipment Manufacturers. Engineeringlabchina high quality Technical Education Equipment products at the best price from China. Soil Testing Lab Equipment China, Experiment Equipment suppliers China, and factory in China
