

**Product Name :**  
In-Situ Vane Shear Test Apparatus

**Product Code :**  
CHINAELABC2690035

**Description :**

In-Situ Vane Shear Test Apparatus

**Technical Specification :**

The apparatus is designed for conducting in situ vane shear test from bottom of a bore hole in saturated cohesive deposits for determining their in place shearing resistance.

The equipment consists of a torque applicator assembly mounted on a base, a gear wheel, which is marked in degrees, holds a torque ring and is geared to a crank, the torque ring is a split ring & deforms as torque is applied & the deformation is indicated by a dial gauge.

A calibration chart to convert dial gauge readings to torque force in kgs/cm<sup>2</sup> is supplied.

For registering the rotations of the vane, a detachable stand is provided to anchor the instrument an attachment to securely hold the string of rods is provided.

A pointer is provided.

The equipments comprises of the following :

Torque applicator assembly capacity 2000kg/cm<sup>2</sup> with split proving ring & dial gauge 0.002 x 5mm complete with stand.

Rods quick couplind type, 1 mtr. long : 1 no.

Rods quick coupling type, 1 ½ mtr. long : 1 no.

Dummy rod, corresponding to 37.5mm dia vane : 1 no.

Dummy rod, corresponding to 50.0mm dia vane : 1 no.

Vane ( with vane rod ) 37.5mm dia x 75mm high : 1 no.

Vane ( with vane rod ) 50.0mm dia x 100mm high : 1 no.

Torque rod ( square cross section) 0.6mts long : 1 no.

Soil Testing Lab Equipment, tools, products and systems for engineering lab and engineering teaching vocational education. At Engineeringlabchina get practical educational equipment for Soil Testing Lab Equipment schools and teaching staff. Buy wholesale China Soil Testing Lab Equipment Manufacturers. Engineeringlabchina high quality Technical Education Equipment products at the best price from China. Soil Testing Lab Equipment China, Experiment Equipment suppliers China, and factory in China
