

Product Name :
Thermal Stability Test Apparatus

Product Code :
CHINAELABC2740032

Description :

Thermal Stability Test Apparatus

Technical Specification :

Microprocessor based PID Controller Temperature cum indicator to give better accuracy.
Avoid heat loss and gives better results Better Cera blanket Insulated to give minimum heat loss.
PVC Rubber Testing Double walled useful for cable.
Solid round shape block Aluminum having number of hole for Thermal tubes as per IS:
Strip type best quality Kanthal heater to give uniform Temperature
Steeliness Steel 304 grade having provision for holes for different tubes
Unique handle arrangement to carry equipment during Test.

Technical Parameters :

Temperature Range: Ambient to 210.1°C, working to 210.1°C continuous

Temperature Accuracy: $\pm 1^\circ\text{C}$ or better

Digital Setting: 1°C

Digital Setting: 1°C

Housing Material: CRC Powder Coated with Mild Steel

Interior: Alum. Block

Duty Cycle: Continuous

Power Consumption: Single Phase AC Supply 220/230V AC Supply $\pm 10\%$ 50Hz

Interior (mm): Heavy Duty Aluminum Block

Heater Watts: 350 W

Laboratory Equipment and Accessories, tools, products and systems for engineering lab and engineering teaching vocational education. At Engineeringlabchina get practical educational equipment for Laboratory

Equipment and Accessories schools and teaching staff. Buy wholesale China Laboratory Equipment and Accessories Manufacturers. Engineeringlabchina high quality Technical Education Equipment products at the best price from China. Laboratory Equipment and Accessories China, Experiment Equipment suppliers China, and factory in China

Engineering Lab China
