

Product Name :
Fume Hood Cabinet

Product Code :
CHINAELABC2740051

Description :

Fume Hood Cabinet

Technical Specification :

These hoods are suitable for providing personal protection needed for general chemistry applications involving fumes and vapors.

Choose from hoods designed to be used with a remotely-located blower or hoods that include a built-in blower — the only high performance hood with built-in blower available anywhere.

They meet the SEFA-1 standard of a low velocity, high performance hood and may be safely operated as low as 60 fpm.

Explosion-proof hoods with built-in blower are available for laboratories with potentially explosive/flammable atmospheres (Class 1 Div I or II).

Without seams, the interior has fewer points of deterioration for longer life.

The one-piece liner of specially-formulated, fiberglass-reinforced polyester offers corrosion and fire resistance and easy clean up.

Laboratory Equipment and Accessories, tools, products and systems for engineering lab and engineering teaching vocational education. At Engineeringlabchina get practical educational equipment for Laboratory Equipment and Accessories schools and teaching staff. Buy wholesale China Laboratory Equipment and Accessories Manufacturers. Engineeringlabchina high quality Technical Education Equipment products at the best price from China. Laboratory Equipment and Accessories China, Experiment Equipment suppliers China, and factory in China
