

Product Name :
Dial Thermometer

Product Code :
CHINAELABC2740063

Description :

Dial Thermometer

Technical Specification :

Dial Thermometers work on principle of bi metal expansion.

Dial Thermometers consists of a sharp metal indicator which is fixed on a circular temperature scale.

There are two main components, one is a needle and another is a temperature sensor.

Scale or range of temperature which Dial Thermometers can measure may vary from -200 0 C to 650 0 Centigrade.

Few more types of Dial Thermometers are Liquid type, Gas filled and Va pour tension Dial Thermometers.

Laboratory Equipment and Accessories, tools, products and systems for engineering lab and engineering teaching vocational education. At Engineeringlabchina get practical educational equipment for Laboratory Equipment and Accessories schools and teaching staff. Buy wholesale China Laboratory Equipment and Accessories Manufacturers. Engineeringlabchina high quality Technical Education Equipment products at the best price from China. Laboratory Equipment and Accessories China, Experiment Equipment suppliers China, and factory in China
