

Product Name :
Electro Pneumatic Training Workbench

Product Code :
POL-PTE0002

Description :

Electro Pneumatic Training Workbench

Technical Specification :

Through this trainer, students can master pneumatic components structure, pneumatic circuit control theory, pneumatic circuit design, and hand on ability for pneumatic trainer.

Introduction

Workbench has 4 wheels, it is suitable for move and installation. 2 wheels can be lockable. It use aluminum panel, the distance for slot is 25mm, there is quickly plug in and plug out sockets under components, students can plug components on aluminum panel easily.

Through this trainer, students can master pneumatic components structure, pneumatic circuit control theory, pneumatic circuit design, and hand on ability for pneumatic trainer.
